

Presentations include:

- **Seed Grown Flowers for the Home Garden** (Celeste Scott, UT Horticulture Extension Agent, Madison County) - Tips on growing, harvesting, and seed collection of easy-to-grow seed grown flowers for the home garden.
- **Lawn and Landscape Weed Control** (Dr. Jim Brosnan, UT Turfgrass Professor) - A question and answer session focusing on strategies to control problematic weeds in home lawns and landscape areas.
- **The Joy of Growing Houseplants** (Sarah Johnson, Johnson's Nursery & Garden Center) - Discussion of new and older house plants and the benefits gained while growing.
- **Growing Dahlias in Tennessee** (Sam Moses, Dahlia Grower, Lebanon, TN) - Learn how to get the most out of your dahlias grown in our great state of Tennessee.
- **Hydrangea Hysteria** (Jason Reeves, Horticulturist, UT Gardens, Jackson) - All there is to know about hydrangeas and some of the best performers in our area. Which one do you choose? How do you take care of them? How and when to prune?
- **Pesticides and Alternative Controls** (Dr. Darrell Hensley, UT Extension Professor) - Review of pesticides safety and possible alternatives.
- **Greens in Small Spaces: From Mini to Micro and More** (Dr. Natalie Bumgarner, UT Assoc. Professor & Extension Specialist) - As the season turns cold, you don't have to slow down on your home food production. There are many great options that can be grown in small spaces or even indoors. Learn all about leafy greens and micro greens.
- **Foraging: Edible, Medicinal, and Poisonous Plants of Tennessee** (John C. Ford, Wilderness Living Skills Instructor) - Learn about foraging for edible and medicinal plants.....mushrooms too and poisonous look-alikes.
- **Mixing Herbaceous Perennial Plants in the Garden** (Dr. Andy Pulte, UT Distinguished Lecturer of Horticulture and Plant Sciences) - Herbaceous perennials continue to be popular additions to the home garden. Get some tips on how to thoughtfully create mixed plantings of perennials.
- **The Nuances of Novelty Fruit** (Melody Rose, UT Extension Agent, Greene County) - An exploration of unique fruit crops to incorporate into your edible landscape.
- **Managing Wildlife Around the Home** (Dr. Craig Harper, UT Extension Wildlife Specialist / Chris Graves, UT Extension Forestry & Wildlife Mgmt. Specialist) - Information will be provided to help homeowners with nuisance wildlife as well as how to attract various backyard wildlife species.
- **Working with Nature in Our Tennessee Yards** (Dr. Andrea Ludwig, UT Assoc. Professor and Extension Specialist) - Sustainable landscaping can take on many forms, from reducing inputs and waste to restoring natural biodiversity and habitat. Get some ideas on how to work with what you've got to enhance the natural beauty of your Tennessee landscape.

- **Pruning with a Purpose** (Lee Rumble, UT Extension Agent / ISA Certified Arborist, Knox County) - Various topics pertaining to ornamental tree pruning. Learn tools of the trade, why we prune trees, when to prune them, how to prune properly, and when to hire an arborist
- **The Birds and Bees of Wildflowers** (Kris Light, Science Outreach Educator) - Learn how plants communicate with their pollinators.
- **Butterflies: Flying Flowers in the Garden** (Kris Light, Science Outreach Educator) - All about our beautiful butterflies and how to attract them to your garden.
- **New Advances in Roses** (UT Distinguished Professor of Plant Pathology) - Get the latest news on rose rosette disease and new advances in roses from an expert.
